Financial Connectivity, Simplified.

AXLETREE

SWIFT SERVICE BUREAU

As North America's first Premier Swift Service Bureau, Axletree has decades of experience in delivering expert guidance and tailored solutions to maximize your Swift connectivity. Boost cost savings and operational efficiency with a fully managed Swift solution that includes connectivity management, infrastructure, maintenance, upgrades, and 24/7/365 support from our Swift-certified team.

Why choose Axletree?

Zero footprint
Swift Service Bureau

Our fully hosted and managed Swift Service Bureau removes the burden of internal Swift environment management, so organizations can focus on their core business initiatives.

Significant cost reductions
& low Total Cost of Ownership

Our Swift Service Bureau provides complete support and maintenance of organizations' Swift connectivity for a fraction of the cost required to manage an in-house environment.

Full automation
& Straight-Through-Processing (STP)

Axletree's Swift Service Bureau is optimized for transaction automation and Straight-Through-Processing of all transactions flowing through our system.

Full support for all Swift upgrades, patches, Swift gpi, CSP assessments & more

Axletree's connectivity and Swift experts are available for ongoing support and maintenance of organizations' critical operations infrastructure, as well as newer Swift initiatives.

MT and MX (ISO20022)
format support

Our Swift Service Bureau natively supports the Swift MT and MX messaging formats, as well as any other message formats organizations require.

24/7/365 access to Axletree's
Swift-certified experts

Axletree's Swift-certified team is available around the clock to support and resolve any questions or issues that arise with organizations' critical Swift processes.

100%
uptime For Swift Connectivity

25Million+
total Swift transactions in 2023

99.99%
uptime for Swift Application & GUI

Client Challenges We Solve

Complex and resource-intensive management of Swift infrastructure, leading to high operational costs and constant risk of trained manpower attrition

Disjointed connectivity environments, creating challenges in maintaining control over financial transactions

Limited internal expertise in managing Swift systems, forcing organizations to divert resources and focus from core business competencies

Inadequate access to Swift-certified professionals, resulting in prolonged resolution times and increased vulnerability to compliance and operational risks

High Total Cost of Ownership (TCO), for in-house Swift environments, putting financial pressure on organizations

Realized Benefits for Organizations

An external, zero-footprint Swift environment

Fully hosted and managed Swift infrastructure

24/7/365 access to our expert, Swift-certified team

Reduced risk of trained manpower attrition

Retain full control over your financial transactions

Increased ability to focus on your core competencies

Swift-trained and certified professionals manage your environment

Significant cost reductions & low Total Cost of Ownership (TCO)

Whether you're a Swift veteran or just starting out, Axletree's Swift Service Bureau gives you *Peace of Mind* with our expert team's specialized knowledge, robust in-house infrastructure, and ongoing managed maintenance and security—everything you need to optimize your Swift connectivity, streamline your resource expenditures, and maximize your operational efficiency.
